Re: July 2013 Financials

Attached are the financial reports for the month ended July 31, 2013.

The reports are broken into the following three groups:

- **Financial Summaries** – This section consists of two pages and provides an overview of the City as a whole, with a focus on activity at the Fund level, including working capital and cash balances.
- **Fund Financial Highlights** – This section consists of ten pages and includes summaries at the individual Fund level, including key revenue and expense information. The funds highlighted are the General, Electric, Water/Sewer, Airport, Sanitation and Economic Development.
- **Financial Statements** – This section consists of 27 pages and provides financial statement type reports on 18 different funds. These reports bridge the gap between the City's budgeting system and the financial reporting information provided in the audited statements.

We have worked diligently over the last few months to change our recording and reporting processes to provide financial information that is accurate. However, please consider this a work in progress for we are continuing to make changes where appropriate.

Regarding the timing of financial reports, we are planning to close each month in time to present these reports by the fourth Monday following the end of the month, which will usually coincide with a Council meeting.

Specific Comments on the Reports

Financial Summaries

In reviewing page 1 of the Monthly Financial Summary, you will see that all funds are well below their Working Capital Balance Target of 45 Days of Operation. Additionally, our Water/Sewer and Airport Funds have negative balances, which mean their current liabilities exceed their current assets. We have taken steps to ensure the Water/Sewer Fund achieves a positive Working Capital Balance by the end of the 2013-14 fiscal year. We are continuing to review the options available to us to improve the financial condition for the Airport.

On page 2 of the Monthly Financial Summary, you will note we have several funds with negative cash balances. The table at the top shows the balances for each fund. Another important measure is Cash and Cash Equivalents, which is comprised of Cash, Investments, Due From Other Funds and Component Units, less Due To Other Funds and Component Units and less Restricted Assets. The chart at the bottom of the Financial Summaries page isolates the Unrestricted Cash and CE balance. Four of our five operating funds have negative Unrestricted Cash and CE balances. A recap of those balances is shown below:

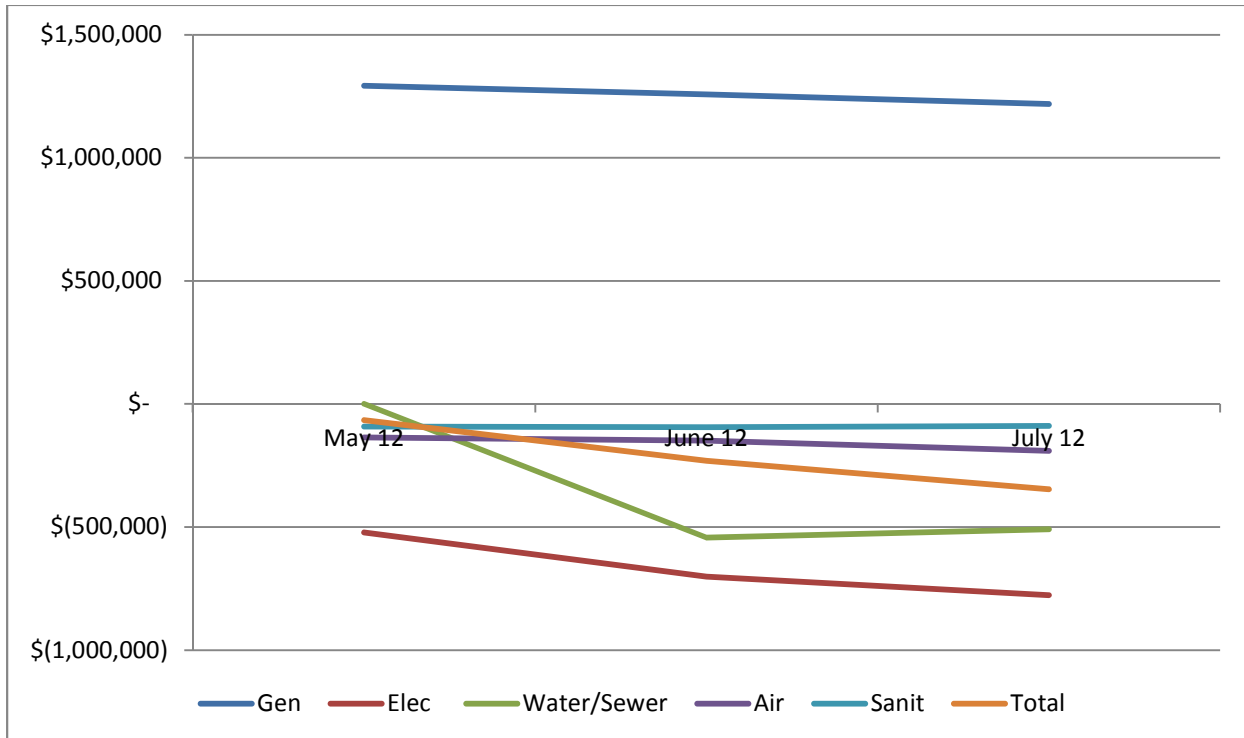

Fund	Unrestricted Cash and CE Balance	Unrestricted Cash and CE Balance
General Fund	\$1,219,214	\$1,219,214
Electric Fund	-244,329	-777,057
Water/Sewer Fund	-509,012	-509,012
Airport Fund	-190,213	-190,213
Sanitation Fund	<u>6,681</u>	<u>-89,473</u>
Total	282,342	-346,540

Note – Two significant payments that would have typically been made in July were made in early August. I felt to not show the impact of the two payments on the July balances would have caused a misrepresentation of the Unrestricted Cash and Cash Equivalents Balance. The payments were \$532,728 to CPS for electricity and \$96,154 to Alamo 1 for sanitation services. The Electric Fund 02 and Sanitation Fund 05 were the two funds impacted.

Since we utilize the pooled cash concept, we are able to pay each Fund's bills by using the Due To and Due From Fund concept. While this method is available for short term use, it is frowned upon because it's effect is to create a loan that has not been approved by Council. For example, we still have a large balance in the 2007 Certificate of Obligation Fund, and those funds contribute to the overall Cash in Bank balance. Since we are aggressively spending those funds, they will soon be gone. Because of that, it is of great importance that we correct this situation as we move forward into the new budget year.

It is important to note the cash positions deteriorated over several years. For example, from 10/1/07 to 9/30/12, the Unrestricted Cash and Cash Equivalents for the Electric Fund declined \$2,479,387 while the Water/Sewer Fund declined \$1,408,187. It will be difficult to recover in a one year period.

End of Month Cash and Cash Equivalent Balances

The chart above shows the end of month Cash and Cash Equivalent balances. The chart will allow us to visually observe our progress on reversing our negative cash positions

I will expand more on the Cash positions in each of the Fund Summaries in the next section.

Fund Financial Highlights

As a reminder, in the past we allowed our budget software to divide the annual budget by twelve, which assumed we would receive and spend funds equally throughout the year. Since we know that is not the way most transactions will flow, we are researching past trends to provide realistic budget projections. As we identify those trends, we make adjustments to the monthly projections. We are not quite through with that process. So for now, the budget amounts in the report are subject to change. For example, in the General Fund, we are not really \$589,000 under where we expected to be. The actual amounts we have spent are correct; it is just the monthly budget projections still need fine-tuning.

General Fund

The General Fund revenues show they are about \$116,000 below projection. Reasons for the difference are:

- Contract Clerical for Electric is \$20,000 below projection, which is attributed to a budgeting error where the General Fund shows revenue of \$50,000 while the Electric Fund shows an expense of \$22,000. We will be correct this transfer imbalance before the end of the year.
- Franchise Fees are below projection by \$27,000, which we attribute to an incorrect budget for the year.
- Municipal Court fees are below projection by \$30,000, which is caused by a decrease in revenue from year to year.
- The remaining difference is considered normal for a fund as large as the General Fund

For our large revenue sources, Sales Tax took a dip in May and leveled in June. At the end of April, we were \$14,629 above projections, or about 3% for the year. For July, we are only showing a \$2,000 increase for the year.

The General Fund expenditures show they are about \$589,000 below projection. There are still several expenditures that need to have their monthly projections updated for seasonal fluctuations. We will continue to fine tune the monthly projects as we move forward.

As reported in a previous section, the Cash and CE for the General Fund is about \$1,219,214. We expect that cash balance to decline as we move into summer for two reasons. First, Property Tax collections are collected early in the fiscal year and second, we have greater expenses in the summer months for things such as mowing and street work.

Electric Fund

On the revenue side, Residential Electric is \$127,000 below projection, Commercial is \$76,000 below projection and Industrial is \$14,000 below projection. Revenues are based on sales, so sales are less than projected.

On the expense side, the largest expense is the Cost of Power, which is \$724,780 under projection. However, as mentioned earlier, the projection included the assumption the July payment would be made in July. If you factor in the July payment of 532,728, then Cost of Power is under projection by 192,052. It is logical if sales of electricity are down, then the Cost of Power would also be down. The other expenses are over projection by \$41,000.

The Electric Fund has a negative operation adjusted Cash and Cash Equivalents of \$777,000. We will address the Electric Fund's cash deficiency as we set rates for the 2013-14 fiscal year.

Water/Sewer Fund

Water revenues are about 6% over our projection. On the other hand, Sewer revenues are running 8% below our projection.

While water expenses show to be over budget by \$20,000, sewer expenses show to be under budget by \$70,000. Part of the water overage is caused by the repair to Well #3, which came in at about \$25,000.

The Water/Sewer fund has a negative operating Cash and Cash Equivalents of \$509,012. The recent increase in Water and Sewer Rates is expected to somewhat reduce this deficit in 2012-13.

Airport Fund

Both revenues and expenses for Fuel are down. The primary reason is the loss of the flight school and a reduction in jet traffic. The "profit" for these two revenues is about \$193,000.

At this time, we are only showing details on the Fuel. As soon as time permits, we will expand to expand out reporting on the other revenue sources such as hanger, land, irrigation and other leases.

The Airport Fund has a negative cash position of \$190,213. The best way to correct this situation is to sell land in the Intermodal Park.

Sanitation Fund

During the 2012-13 budget presentation, I shared a concern we were not collecting the correct amount of sanitation revenues. Our rate structure is designed where we should have a net mark-up on base residential and commercial Solidwaste service. That mark-up is designed to offset the cost of extra items such as tire and television disposal, annual heavy trash pickup, fuel surcharges, and the cost of the collection center. The amount of revenues we were collecting did not cover our base billing at the level it should have. While work has been done to improve the collection percent, there is still room for improvement.

The major cause of the negative cash position is caused by the timing of paying for services and collecting the amounts due from customers. I.e. we pay for the month's service but it is 15 days before we collect the amounts from our customers. Once we obtain our minimum working balance ratio of 45 days of expenses, it will solve the negative situation in this fund.

In July, we found expenses had been charged to this fund that belonged to the General Fund, so we moved them to the correct account. We also did not post the July payment of \$96,154 to Alamo1, so both of these have influenced the July balances.

Economic Development Fund

This fund has one primary revenue source which is sales tax. The same comments regarding sales tax that were mentioned in the General Fund apply to this source too, just divided in half. This is another fund I hope to expand reporting details in the future.

Financial Statements

These are the detail statements for each fund. In addition to the funds presented in the previous section, you will find information on the following funds:

- Fund 14 – 2007 Certificate of Obligation
- Fund 20 – South Texas Regional Training Center
- Fund 21 – Hotel Occupancy Tax
- Fund 06 – Debt Service
- Fund 11 – Perpetual Care (Cemetery)
- Fund 12 – Forfeiture/Seizure Fund
- Fund 16 – Library Building Fund
- Fund 17 – Unclaimed Money Fund
- Fund 70 – Police Grants Fund

At some point, I would like to provide additional information on these funds but other matters need to be attended to first.

Closing

While the data contained in these reports present a much clearer picture of our financial condition than those you received in the past, we still have room for improvement.

As always, please let me know if you have any questions.

Sincerely,

Jeff Litchfield
City Manager

Targeted Days of Working Capital - Operating Funds

The City Manager's Goal is to achieve 45 Days of Working Capital in each of the Major Operating Funds by the end of Fiscal Year 2015-16. It should be noted that the 45 day target is well below the 60 to 90 days recommended by the Government Finance Officers Association. The graph shows the Working Capital Balance as of the end of 2011-12 Fiscal Year, the end of the current period, the current year's projection based on the adopted budget, and the 45 day target.

Working Capital Balances for Operating Funds

July 2013 Monthly Financial Summary

City of Hondo, Texas

Cash and Cash Equivalents

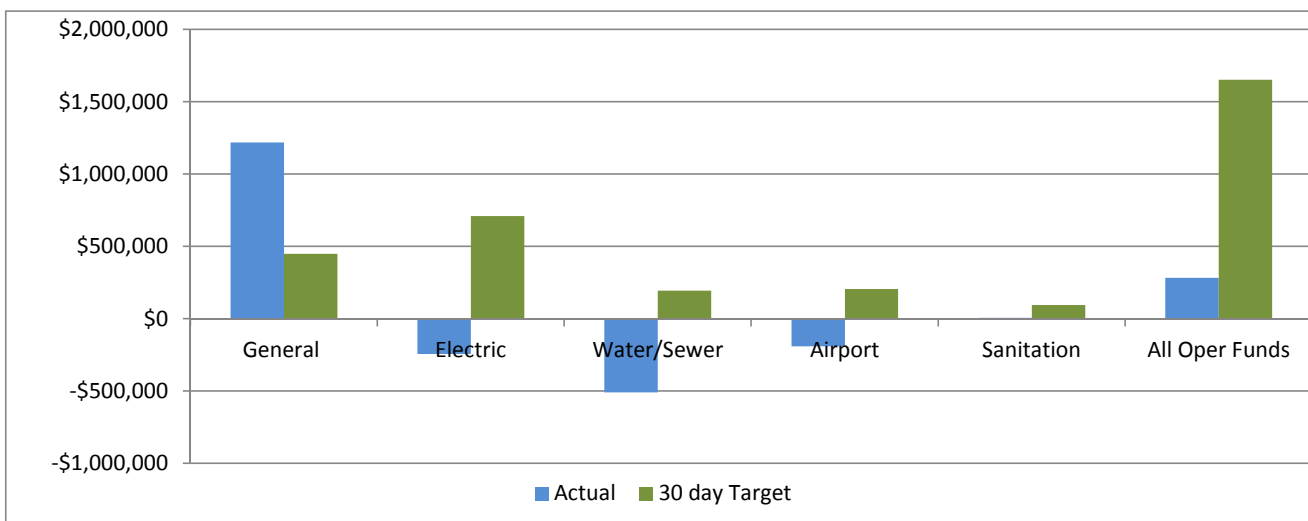

Another financial measure is Cash and Cash Equivalents (Cash & CE). For measurement purposes, we are defining Cash & CE to include Cash, Investments, Due From Other Funds or Component Units less Due to Other Funds or Component Units.

Fund	Cash	Investments	Due from Funds or Component Units	Due to Funds or Component Units	Total
Governmental Funds:					
01 - General	1,376,452	-	172,177	(329,414)	1,219,214
14 - 2007 CO's	177,641	984	456,484	-	635,108
20 - STRTC	52,096	-	-	-	52,096
21 - Hotel Occupancy	14,350	-	(13,935)	-	415
Component Unit:					
18 - EDC	816,397	1,002,248	(1,133)	2,917	1,820,429
Enterprise Funds:					
02 - Electric	(34,382)	-	(476)	(6,269)	(41,127)
03 - Water/Sewer	208,208	-	-	9,851	218,059
04/74 - Airport & Grants	(456,212)	260,362	(15,198)	6,637	(204,410)
05 - Sanitation	6,681	-	(12,922)	12,922	6,681
Special Revenue Funds:

16 - Library Building	233,599.87	-	4,392.52	400.00	238,392
17 - Unclaimed Money	507.33	16,463.71	-	(14,876.45)	2,095
70 - Police Grants	-	-	-	-	-
Total All Funds	3,167,086	1,280,058	623,660	(317,833)	4,752,971

Unrestricted Cash and Cash Equivalents - Operating Funds

For this calculation, we exclude Restricted Cash, such as Customer Deposits and the Water Resource Fee. The City Manager's Goal is to have a positive Unrestricted Cash & CE for each Operating Fund by the end of 2013-14 and achieve a target of 30 day's of operations by the end of 2015-16. While both the end of period actual and the 30 day target are shown below, the reader needs to acknowledge the funds, and especially the General Fund, do not have level revenue and expense amounts each month. This means a fund can have a positive cash balance one month and a negative the next.

Current Month Cash and Cash Equivalents Calculation - Operating Funds
