THIS IS GOD'S COUNTRY

**Kim Davis
City Manager**

I. POLICY

It is the policy of the City of Hondo, Texas (the "City") to administer and invest its funds in a manner which will preserve the principal and maintain the liquidity through limitations and diversification while meeting the daily cash flow requirements of the City. The City will invest all available funds in conformance with legal and administrative guidelines, seeking to optimize interest earnings to the maximum extent possible.

The purpose of this investment policy is to comply with all statutes governing the investment of the City's funds, including the Public Funds Investment Act, Chapter 2256 of the Texas Government Code (the " Act"), which requires the City to adopt a written investment policy regarding the investment of its funds and funds under its control. The Investment Policy addresses the methods, procedures and practices that must be exercised to ensure effective and judicious fiscal management of the City's funds. This policy will be reviewed annually pursuant to Section 2256.005 of the Act.

II. SCOPE

The City will strive to earn a return on funds invested at the highest investment return possible after taking in consideration the primary goals of preservation of principal and liquidity of funds invested, consistent with the policy objectives described below. This investment policy applies to the investment activities of the government of the City.

FUNDS INCLUDED The City's funds, which are sometimes pooled together, constitute the investment portfolio, include all financial assets of all funds managed by the City, including but not limited to receipts of tax revenues, charges for services, bond proceeds, interest incomes, loans and funds received by the City where the City performs a custodial function. These funds are accounted for in the City's Annual Financial Report (AFR) and include:

- General Fund
- Special Revenue Funds
- Debt Service Funds
- Capital Projects Funds
- Enterprise Funds

Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles.

III. OBJECTIVES

SAFETY The primary objective of the City's investment activity is the preservation of capital and the protection of investment principal in the overall portfolio. Each investment transaction shall seek first to ensure that capital losses are avoided, whether they are from securities defaults or erosion of market value. The City will strive to minimize credit risk by limiting investments to the safest types of investments, prequalifying the financial institutions and broker/dealers with which the City conducts business, and diversify the investment portfolio so that potential losses on individual issuers will be minimized. To minimize interest rate risk, the City will ladder the portfolio and match investments with future cash requirements and invest operating funds in shorter, more liquid securities and investments.

LIQUIDITY The City's investment portfolio will remain sufficiently liquid to enable the City to meet operating requirements that might be reasonably anticipated. Liquidity shall be achieved by matching investment maturities with forecasted cash flow requirements and by investing in securities with active secondary markets. Because all possible cash demands cannot be anticipated, a portion of the portfolio may be invested in shares of money market mutual funds or local government investment pools that offer same day liquidity.

PUBLIC TRUST All participants in the investment process shall seek to act responsibly as custodians of the public trust. Investment Officials shall avoid any transaction that might impair public confidence in the City's ability to govern effectively. The governing body recognizes that in a diversified portfolio, occasional measured losses due to market volatility are inevitable, and must be considered within the context of the overall portfolio's investment return, provided that adequate diversification has been implemented.

YIELD (Optimization of Interest Earnings) The City's cash management portfolio shall be designed with the objective of regularly meeting or exceeding the average rate of return on U.S. Treasury Bills at a maturity level comparable to the City's weighted average maturity in days. The investment program shall seek to augment returns above this threshold consistent with risk limitations identified herein and prudent investment principles.

INVESTMENT STRATEGY The City maintains a commingled portfolio for investment purposes which incorporates the specific uses and the unique characteristics of the funds in the portfolio. The investment strategy has as its primary objective assurance that anticipated liabilities are matched and adequate investment liquidity provided. The City shall pursue conservative portfolio management strategy. This may be accomplished by creating a laddered maturity structure with some extension for yield enhancement. The maximum dollar weighted average maturity of 2 years or less will be calculated using the stated final maturity date of each security.

IV. **RESPONSIBILITY AND CONTROL**

Oversight Responsibility for the investment activity of the City shall rest with the City Manager. The City Manager will designate investment officer(s), receive and review quarterly reporting, approve and provide for investment officer training, approve broker/dealers, and review and cause to be adopted the Investment Policy and Strategy at least annually.

DELEGATION Management responsibility for the investment program is hereby delegated to the Director of Finance, who shall establish written procedures for the operation of the investment program, consistent with this investment policy. Such procedures shall include explicit delegation of authority to persons responsible for investment transactions.

SUBORDINATES All persons involved in investment activities will be referred to as "Investment Officers." No person shall engage in an investment transaction except as provided under the terms of this policy and the procedures established by the Director of Finance. The Director of Finance shall be responsible for all transactions undertaken, and shall establish a system of controls to regulate the activities of Subordinate Investment Officers. All investment officers, including the Director of Finance, will demonstrate competence in the execution of the city's investments. All Investment Officers will insure compliance with the investment program with ongoing training and evaluation by management.

PRUDENCE Investments shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived. Investment Officers acting in accordance with written procedures and this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and the liquidity and the sale of securities are carried out in accordance with the terms of this policy.

INDEMNIFICATION The Director of Finance and the other Investment Officer(s), acting in accordance with written procedures and exercising due diligence, shall not be held personally responsible for a specific investment's credit risk or market price changes, provided that these deviations are reported immediately and the appropriate action is taken to control adverse developments.

ETHICS DISCLOSURE AND CONFLICTS OF INTEREST Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution and management of the investment program, or which could impair their ability to make impartial investment decisions. Employees and Investment Officers shall disclose to the City Manager any material interests in financial institutions that conduct business with the City, and shall further disclose any personal financial or investment positions that could be related to the performance of the City's investment portfolio. Employees and Investment Officers shall refrain from undertaking personal investment transactions with the same individual with which business is conducted on behalf of the City.

An Investment Officer who has a personal business relationship with an organization seeking to sell an investment to the City shall file a statement disclosing that personal business interest. An Investment Officer who is related within the second degree by affinity or consanguinity to an individual seeking to sell an investment to the City shall file a statement disclosing that relationship. A statement required under subsection 2256.005(i) of the Act must be filed with the Texas Ethics Commission and the governing body of the City.

TRAINING Pursuant to Section 2256.007 of the Act, the Investment Officers shall attend 10 hours of investment training within 12 months after taking office or assuming duties, and 10 hours every succeeding two years that begins on the first day of the fiscal year, which is October 1st, and consists of the two consecutive fiscal years after that date. The investments training shall be provided from an independent source as approved by the City Council to insure the quality and capability of investment management in compliance with the Act. For the purposes of this policy, an "independent source" has been defined by the City Council as a professional organization, an institute of higher learning or any other sponsor other than a Business Organization with whom the City may engage in investment transactions. Training shall be in accordance with the Act and shall include education in investment controls, security risks, strategy risks, market risks, diversification of investment portfolio, and compliance with statutes governing the investment of public funds.

V. **REPORTING**

Investment reports shall be prepared quarterly and be signed and submitted by the Investment Officers, in a timely manner. These reports will be submitted to the City Manager and City Council. This report shall describe in detail the investment position of the City, disclose the market value and book value of each fund group as well as each separate investment, and state the

maturity date of each security and accrued interest for the reporting period. The report shall include all information as required by Section 2256.023 of the Act. It must also express compliance of the portfolio to the investment strategy contained in the City's Investment Policy and the Act.

MONITORING The market price of each investment shall be obtained monthly from a source such as the Wall Street Journal newspaper, the City's custodial bank, a reputable brokerage firm or security pricing service and reported on the investment reports. Investments with minimum rating requirements will be monitored for rate changes and liquidation of such investments will be determined at such time.

Monitoring credit ratings – The Investment Officer shall monitor, on no less than a monthly basis, the credit rating on all authorized investments in the portfolio based upon independent information from a nationally recognized rating agency. If any security falls below the minimum rating required by Policy, the Investment Officer shall notify the City Manager of the loss of rating, and liquidate the investment within one week.

Monitoring FDIC Status for Mergers and Acquisitions – The Investment Officer shall monitor, on no less than a weekly basis, the status and ownership of all banks issuing brokered CDs owned by the City based upon information from the FDIC. If any bank has been acquired or merged with another bank in which brokered CDs are owned, the Investment Officer or Advisor shall immediately liquidate any brokered CD which places the City above the FDIC insurance level.

VI. INVESTMENTS

ACTIVE PORTFOLIO MANAGEMENT The City intends to pursue active versus passive portfolio management philosophy. That is, securities may be sold before they mature if market conditions present an opportunity for the City to benefit from the trade.

AUTHORIZED INVESTMENTS The following are authorized investments as further defined by the Act. Only those investments listed in subsections B and E of this section are authorized at this time.

A. Obligations, including letters of credit, of the United States or its agencies and instrumentalities; direct obligations of this state or its agencies and instrumentalities; other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of, this state or the United States or their respective agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States; and obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than A or its equivalent. (Section 2256.009 (a) of the Act)

EXISTING INVESTMENTS The Investment Officer is not required to liquidate investments that were authorized investments at the time of purchase. Any investments currently held that do not meet the guidelines of this policy shall be reviewed to determine the ability to liquidate. An investment that requires a minimum rating under this subchapter does not qualify as an authorized investment during the period the investment does not have the minimum rating. An entity shall take all prudent measures that are consistent with its investment policy to liquidate an investment that does not have the minimum rating. If the investment cannot be liquidated because of material adverse change in the value since the time of purchase, and holding the investment to maturity does not negatively affect disbursements or cash flow, a recommendation of holding said investment to maturity is acceptable.

MAXIMUM MATURITIES The maximum stated maturity, from the date of purchase, for any individual investment may not exceed 5 years and the maximum dollar-weighted average maturity for the pooled fund group (investment portfolio) may not exceed 2 years.

DIVERSIFICATION It is the policy of the City to diversify its investment portfolios. After first considering safety and liquidity, the City's investment portfolio shall be designed with the objective of regularly exceeding the average rate of return on U.S. Treasury Bills at a maturity level comparable to the City's weighted average maturity in days.
